

## Bulletin 22

### Fire Alarm

Tenant is required to connect to the Landlord provided Fire Alarm system. Tenant will extend and expand the existing system within their Premises to accommodate the additional fire alarm devices as required by authorities having jurisdiction. Tenants are required to utilize Landlord's Fire Alarm vendor to engineer shop drawings, install, program, and perform final termination of Tenant's fire alarm to the Landlord's system.

Required Fire Alarm Contractor:

Krista Colandra  
SIEMENS  
3021 N. Commerce Parkway  
Miramar, FL 33025  
Direct: (954) 329-4305  
E-mail: [krista.colandra@siemens.com](mailto:krista.colandra@siemens.com)

Additionally, all fire alarm devices required by Tenant are to be furnished and installed by Siemens or a Siemens Certified electrical contractor. Raceways, boxes and wiring may be furnished and installed by Tenant's electrical contractor or a Siemens Certified contractor.

For Impairment Procedures, See Bulletin 16 (Logistics and Build Out Rules and Regulations).
